

THIS TERM IN FOREST SCHOOL, PUFFINS HAVE.....

Working in groups, they have built a survival shelter to protect their heads from a torrential raincloud disguised as a watering can!

Some have been nettle ninjas and gathered nettles by hand while all have sampled them in the tortillas they have made on the bonfire.

They have imagined themselves unable to see and how different their surroundings appear without sight! They have worked with ropes haul, pull and guide themselves a long.

And finally, they have made flags decorated by bashing and of course had fun!
