## Number Sense Maths Programme

**At Framfield, we use the number sense programme to deliver short fact fluency sessions to help our children secure the number facts that will help them to be successful mathematicians.**

## Number Facts Fluency Programme

The Number Facts Fluency Programme teaches a defined set of addition and subtraction facts and a defined set of calculation strategies. The systematic and structured approach ensures children develop key visual pathways and learn important number relationships.

This leads to a deep understanding of number and number relationships, and to fluency in addition and subtraction facts.

## What is Times Tables Rock Stars?

In either paper form or online, Times Tables Rock Stars is a carefully sequenced programme of daily times tables practice.

Each week concentrates on a different times table, with a recommended consolidation week for rehearsing the tables that have recently been practised every third week or so.

This format has very successfully boosted times tables recall speed for hundreds of thousands of pupils over the last 8 years in over 16,000 schools - both primary and secondary - worldwide.
